Complete	£456.79	1
Financially Complete	£745.02	2
Lost	£900.00	1

The screenshot shows the 'mylazye software' website. At the top, there is a navigation bar with tabs for Home, Benefits, FAQ, Pricing, and Security. The main content area is titled 'On-line software security for plumbers and electricians' and lists four security benefits, each preceded by a green checkmark icon. A green button labeled 'Click here for a free demo' is positioned below the list. To the left of the main content are three vertical boxes: the first contains a clapperboard icon and a link to watch a video; the second contains the Adobe logo and a link to download a brochure; the third contains a house icon and a link to return to the home page. To the right of the main content are two vertical boxes: the top one is an 'Ads by Google' section featuring two ads for software and a plumber; the bottom one contains an icon of two computer monitors and a link to a forum.

Security is of course key to anyone’s requirements; we have taken a 3 tier installation approach to ensure your information is secure.

There are 3 separate servers:

1. Holds usernames and passwords
2. Stores your data which is unique to your login
3. Holds the website which does not contain any data
